WAYS TO GIVE WHERE THE FUNDS GO ABOUT US

Livelihoods

<REFINED_NAME>, thank you for helping families gain skills and opportunities to lift themselves from poverty.

Through initiatives like savings groups and microfinance, you're creating better income opportunities. You're also helping families to improve their food security - their reliable access to nutritious food. With your help, parents are providing more sustainably for their children's health, education and general wellbeing.

Highlights from the global impact you've been part of

28,459
people formed 1,354 savings groups in Tanzania

3,130
people in Papua New Guinea, mostly women, took part in financial inclusion workshops

2,317
loans totalling \$427,680 were provided to people in Myanmar

Thanks to supporters like you, farmers like Sobita in Bangladesh are learning climate-smart techniques to increase the quality and quantity of their produce.

"I like our vegetables," says Pryanka, aged nine. She loves helping her mother Sobita on and only wants to eat homegrown veges.

Another opportunity to make your impact is by donating to our other program areas. These include education, emergencies, health, water and supporting Indigenous Australians.
